Danish Design by **FERCHLAND**

Dare to be different!

Some years ago a man took a walk through the forest, picked up an oak leaf and thought, "hmm, this could be a great design for a chair!" Fourteen months later the OAKLEAF was ready to be introduced to the world:

"It was important for me to create an innovative, yet contemporary chair. At the same time I wanted to pay homage to classic Danish furniture quality through my choice of materials, craftsmanship and finish."

"I see OAKLEAF as a new classic reflecting our longstanding Danish design traditions. I simply refuse to compromise the quality of the materials or craftsmanship in any part of the production of the OAKLEAF."

OAKLEAF designer Agnar Ferchland.

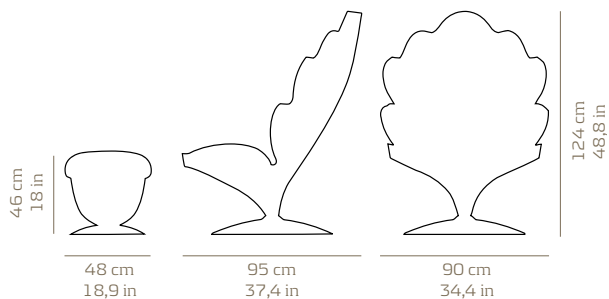

SPECIFICATIONS:

MATERIALS: Molded M.D.I foam and Molded Hard PUR-foam

FABRICS: Upholstery or leather

BASE: Satin-steel

DESIGN: Ferchland

Take nature indoors with the OAKLEAF™!

The OAKLEAF from FERCHLAND is maybe today's most innovative and sculptural seating solution inspired by the natural shapes of the oak acorn and leaf.

As well as taking center stage, the OAKLEAF brings new meaning to be seated comfortably and fits equally well in a conference room as in a private home.

The OAKLEAF is available by special order only. Go to www.ferchland.dk for further information
